

WEST TYTHERLEY CE PRIMARY SCHOOL

SCHOOL SPORTS PREMIUM FUNDING

The Government is currently providing additional funding to primary schools, to improve the quality & provision of physical education (PE) and sport for the benefit of all children.

Physical Education and School sports is an area where all pupils can enjoy and achieve, building on a platform for life long physical activity in an environment where *everyone* can succeed and thrive.

Use of the Sports Premium Grant 2016/17

At West Tytherley, our main objectives were:

- to increase pupil participation in sporting activities in school, after-school clubs and within the wider cluster
- to ensure that all children can access and enjoy a wider range of sporting activities
- to increase the use of specialist coaching to enhance the quality of teaching and learning and staff development.
- to improve the range of resources available to children, to enhance provision in games/PE and at playtimes.

Overall Allocation: The school received a sport premium grant of £9673 for 2016/17.	
Spending:	Funding:
• Purchase of Sports & Play Equipment	£2500
• Funding Cluster Sports Manager to lead and run area and inter-schools sporting events	£1200
• Provide Specialist Coaching for sports	£3000
• Active and Healthy Celebration Week	£2000
• Costs to engage at Cluster/Area events	£800

Impact Statement

- The school has actively promoted involvement of pupils in a wider range of cluster initiatives and this has been well supported by staff, pupils and parents. This has led to children being more willing to be involved and participation rates have increased. There has also been a measureable increase in pupils' confidence in their own abilities and they are more aware of the skills required for particular teams games and competitions.
- There is more of a focus upon 'taking part' and having a 'growth mindset'. At our recent Sports Day, the engagement of pupils was noticeably more positive and children were keen to take part and compete.
- This is also beginning to impact children more in their everyday learning in class – increasing pupils' confidence, concentration, team work and social skills.
- Our 'Play leaders' initiative was set up at the beginning of the year, involving a group of children in being trained to lead small group games at lunchtime.

WEST TYTHERLEY CE PRIMARY SCHOOL

Some feedback received by KS1 pupils, is that 'playtimes are calmer; children behaviour is better; there is greater respect for each other; we are actively engaged and enjoying playtimes; playtimes are more focused and orderly. The investment in more equipment has encouraged a wider range of play opportunities and has helped to involve more children in enjoyable activities.

- Our 'Sports Ambassadors' programme has helped to promote active playtimes for the KS2 pupils. It has supported older children to develop their leadership skills – offering more opportunities to involve other in team games.
- Our 'Active and Healthy celebration' week has been highly successful. Professional coaches have been employed to offer the children in a range of exciting sport opportunities and activities. Children have enjoyed trying out new and exciting activities. They have approached these with enthusiasm and increasing confidence. The pupils have commented on how enjoyable this week has been - giving real focus; promoting whole school involvement; and celebrating achievements. Comments from pupils, parents and staff have been very positive.
- We have sought to establish links with Norman Court School – this has enabled us to use their facilities; sports coaches; bolster numbers for team events that have supported both schools; and developed our relationship with the school and the community.
- We have also funded Specialist coaching for PE/Games lessons and this has helped to increase pupils' knowledge and understanding, developed their physical skills and expertise; and increased the confidence and capacity of our school staff.

Proposed Use of the Sports Premium Grant 2017/18

Our main objectives for improvement are:

- to continue to increase pupil participation in sporting activities in school, after-school clubs and within the wider cluster
- to offer all children a varied programme of sporting opportunities that develop self-esteem, competitive spirit and team work.
- to increase the use of specialist coaching to enhance the teaching of physical education, provide supportive staff development and increase the extra-curricular opportunities.
- to enhance the range of resources available to children, both in their learning and at playtimes.

Overall Allocation: The school received a sport premium grant of £3521 for 2017/18.

Spending:	Funding:
• Purchase of Sports & Play Equipment	£1000
• Funding Cluster Sports Manager to lead and run area and inter-schools sporting events	£1300
• Provide Specialist Coaching for sports (partial)	£1221
